OGBONNA KENNEDY C.

WEB DEVELOPER

SUMMARY

- Passionate, highly motivated, goal-oriented Web developer, who enjoys working individually, and as part of a team.
- My future goal is to become a Senior Fullstack Web developer at a large company / institution.
- To achieve the above, I would improve my skills, learn new tech stacks and technologies.

EXPERIENCE

Web Developer   **Jun 2020 - Sep 2021**
REDROCK Technologies, NG
Developed and maintained an Inventory Management System.

Web Developer   **Sep 2021 - Feb 2023**
MEDSOPH Health Solutions, NG
Developed a Healthcare System / Platform for Online Medical Services.

Web Developer   **Mar 2023 - Aug 2023**
MAKKIE Stores, NG
Developed an E-commerce website for sales of Medical Items and Accessories

EDUCATION

Bachelor of Medicine, Bachelor of Surgery.   **Sep 2012 - Oct 2022**
Imo State University College Of Medicine.
Bachelor of Medicine, Bachelor of Surgery - M.B.B.S

PROJECTS

Portfolio Website   **Aug 2021 - Present**
- Developed with HTML, CSS, Vanilla JS, Python, Flask.

Arbitrage Calculator App   **Feb 2022 - Jun 2022**
- A Python based web app that collects data by web scraping using Selenium and BeautifulSoup4 from multiple betting sites.
- Uses collected data to calculate Arbitrage opportunities, to increase profit and reduce losses.

Forex Auto Trader   **Nov 2022 - Jul 2023**
- A Python based web app that connects to MetaTrader 5, using the MT5 API documentation.
- App pulls 1yr worth of prices, analyzes it and picks prices with opportunities
- Also, places trades with stop loss and take profit, tracks the market prices and ends trade when not favourable.
